

Northshore School District

BOARD POLICY

No. 1312

THE BOARD OF DIRECTORS

Administrative Procedures

The superintendent shall develop such administrative procedures as are necessary to ensure consistent implementation of policies adopted by the board.

When a written administrative procedure is developed, the superintendent will inform the board of the substance of the new procedure. An administrative procedure will be submitted for the board's consideration, if requested. Such procedures need not be approved by the board, though it may request revisions when it appears that they are not consistent with the board's intentions as expressed in its policies. Procedures need not be reviewed by the board prior to their issuance; though on controversial topics, the superintendent may request prior board review.
